RE: Docket No. 98N-1265

To whom it may concern:

I am on hormone replacement and need to mail order my special prescriptions. I find that the quality of the medication that I receive from my compounding pharmacy is far superior to that which I would "normally" have access to. Premarin and other medications cause me side effects. There is a compounding pharmacy in California, but it is far more expensive than the one I use which is in Wisconsin.

I send this letter as a consumer of health care services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer there should be no restrictions to the delivery of compounded medication prescribed for me, regardless of where I live or travel. The MOU must be amended!!!

The FDA is an agency of the U.S. Government that purports to be the "watchdog" for consumer safety. THIS IS NOT A SAFETY ISSUE!! As a governmental agency, the FDA also has a responsibility to be accountable to the people. Once again, the MOU must be amended!!

Sincerely,

Grace Aaron
